DETAILED ACTION

In response to the amendments filed on 8/5/2005, all the amendments to the claims has been entered and the action follows:

Claim Rejections - 35 USC § 112

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 1, 2, 3, 7 and 13 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. The claimed subject matter "only a portion" is not enabling in the specification in such a way as to enable one skilled in the art to which it pertains. Rather the specification calls for a "of a part" or "of part" in many places. Claims 4-6, 8-12 and 14-18 are rejected because they are dependent claims of independent claims 3, 7 and 13 respectively.

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

3. Claims 1, 7-8 and 10 as best understood are rejected under 35 U.S.C. 103(a) as being unpatentable over Ikeda et al (US 6204881).

With respect to claims 1, 7-8 and 10 the rejections are respectfully maintained and incorporated herein with reference as set forth in the prior office action dated 4/20/2005.

4. Claims 9, and 11-12 as best understood are rejected under 35 U.S.C. 103(a) as being unpatentable over Ikeda et al (US 6204881) in view of Molloy (US 6078349).

With respect to claims 9, and 11-12 the rejections are respectfully maintained and incorporated herein with reference as set forth in the prior office action dated 4/20/2005.

5. Claims 2, 3-4, 6, 13, 14 and 16 as best understood are rejected under 35 U.S.C. 103(a) as being unpatentable over Ueda et al (US 5953459).

With respect to claims 2, 3-4, 6, 13, 14 and 16 the rejections are respectfully maintained and incorporated herein with reference as set forth in the prior office action dated 4/20/2005.

6. Claims 5, 15 and 17-18 as best understood are rejected under 35 U.S.C. 103(a) as being unpatentable over Ueda et al (US 5953459) in view of Molloy (US 6078349).

With respect to claims 5, 15 and 17-18 the rejections are respectfully maintained and incorporated herein with reference as set forth in the prior office action dated 4/20/2005.

Response to Arguments

7. Applicant's arguments filed 8/5/2005 have been fully considered but they are not persuasive. Applicant argues that the independent claims 1-3, 7 and 13 are amended to

add new limitation of "only a portion" in order to distinguish the claims from the reference. Examiner would like to point out the rejection to the independent claims as set forth above in this office action. .

Conclusion

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
